WORK EXPERIENCE

Biskit Media, Boston, Massachusetts
iOS (Swift) Software Developer   **November 2023 – Current**
- Carried out front-end software development for a student-led start-up application. The work environment allowed for significant input and feedback from the development teams regarding possible features of the application.
- Attended meetings and discussed features and solutions with management. Took meeting minutes and set clear goals for the future.
- Collaborated with other members of the development team in both front-end and back-end to develop a cohesive solution.

Silice, Panama City, Panama
Quality Assurance Tester   **July – August 2022**
- Conducted Quality Assurance testing for applications related to sales and business management used by large enterprises internationally.
- Evaluated the quality of the products and reported any issues and inconsistencies that were found within the program's results.
- Worked with the project management team to find errors that could lead to future problems with the platform.
- Ensured the standardization of quality across all applications in the digital ecosystem whilst in a project management environment in collaboration with colleagues.

UNAIDS, Panama City, Panama
Communications Intern   **August– October 2021**
- Pushed forward an Information Education and Communication campaign on HIV awareness for the Latin-American region. These actions were carried out in unison with a sustained support of LGBTQ+. Participated in a human rights awareness campaign fighting the discrimination against intersectional people living with or without HIV.
- Created infographics and reports and carried out translations (English-Spanish) for projects addressing the prevention of (and response to) HIV and the protection of the human rights of those living with HIV/AIDS.
- Reviewed the quality of materials related to the ongoing efforts against the discrimination of people living with HIV/AIDS.
